

VACANCY: Engineering Technician - Mechanical

LOCATION: Kilmarnock

ABOUT US:

Glenfield Invicta Limited is part of the AVK Group; who are market leaders in the supply of valves, fittings and flow control equipment to the Water, Waste Water, Oil and Gas industries throughout the world.

As part of our rapid growth, we are recruiting for Skilled Field Technician with a Mechanical focus to provide our valued customers an excellent technical service including the installation, service, refurbishment, and customer support of all Mechanical components associated within our core business of Penstocks, Valves and Actuators.

This is an active engineering role where you will be working outside in all weather conditions and in confined spaces such as drains and sewers.

This position requires a flexible approach and on-call duties will be necessary on a rota basis.

ABOUT THE ROLE:

Key responsibilities include, but are not limited to:

- Analytical survey of control equipment, both mechanical and physical. Penstocks, Valves & Actuators.
- Isolate, dismantle and inspect valve / actuator parts, including moving parts and lubricants.
- Examine and report any defects with regards to the valves, actuators, and pipework.
- Report any abnormalities.
- Supply details, measurements, and full descriptions of any components that require replacement.
- Install and commission supplied equipment and all associated apparatus.
- Work as part of a team where health and safety demands.
- Carry out both planned and reactive service visits as scheduled in a timely manner.
- Lifting of access covers and all associated components from ground level to an approximate depth of 10m once certified using the appropriate tools supplied by Glenfield Invicta Limited.
- Working in an outdoor environment in different weather conditions.
- Driving a company vehicle to the standard required by Glenfield Invicta Ltd, as detailed in the Company policy to and from scheduled and reactive calls.
- Guide and supports junior team members; may assist in training.

ABOUT YOU:

- Mechanically qualified to City & Guilds/NVQ Level 3 or industry equivalent.
- Knowledge of Actuators, Valves, associated equipment is desirable.
- Physically fit able to lift weights.
- Ability to work in confined spaces – confined space medical is required.
- Outside on customer site in all weather conditions.
- Work in confined spaces i.e., drains, sewers
- Experience in MIG Welding is desirable.
- Able to use a computer/automated system and various customer management systems.
- Excellent planning and organising skills.
- Full driving licence.
