

WORKSHOP MACHINIST

VACANCY: Workshop Machinist

LOCATION: Maidstone

ABOUT US:

Glenfield Invicta provide end-to-end project solutions, from initial survey and design to commissioning and long-term asset management. They are part of the AVK Group, a global leader in high-quality valves and hydrants for water, wastewater, gas, and fire protection. As part of our rapid growth, we are looking for a Workshop Machinist to join our team.

ABOUT THE ROLE:

As a Workshop Machinist, you'll play a key role in the manufacture of high-quality machined components to support the company's products and operations. The role involves operating CNC and manual machining equipment, working accurately from technical drawings, and ensuring all components meet the required quality standards and production deadlines.

Key responsibilities include, but are not limited to:

- Manufacture components using CNC and manual machining equipment, working accurately to technical drawings and specifications.
 - Set up and operate CNC machines, including selecting appropriate tooling, setting offsets, and running programmes safely and efficiently.
 - Complete machining operations within required lead times while maintaining high standards of quality.
 - Perform quality checks on finished components to ensure they meet drawing specifications and required tolerances.
 - Interpret and work from technical drawings, ensuring machining requirements are understood and followed accurately.
 - Maintain CNC and manual machining equipment and report any issues or concerns as appropriate.
 - Maintain a clear, safe, clean, and organised workshop environment.
 - Support annual stock-taking activities and assist with the effective organisation of materials and equipment.
 - Work effectively both independently and as part of the wider workshop team.
- Follow all company health, safety, environmental, and quality procedures at all times.

Skills Required:

- Strong CNC machining ability (setup, tooling, offsets, and operation)
- Ability to interpret and work from technical drawings
- Competence with manual machining equipment
- Good understanding of machining tolerances and quality standards
- Strong attention to detail and problem-solving ability

WORKING HOURS:

- 37.5 hours per week

We know that our people make the difference in the AVK Group, and we are looking for skilled, passionate, and driven professionals to work with our inspirational leaders; to promote our culture, enable change and champion a lean environment.
